

THE 18TH ANNUAL WARREN WETZEL, MD TRAUMA/EMERGENCY MEDICINE SYMPOSIUM WEDNESDAY, MAY 4, 2016

The Annual Warren Wetzel, MD Trauma/Emergency Medicine Symposium represents the only regional conference dedicated solely to the management of trauma patients. As such, it has been able to attract a nationally recognized faculty. New York City has 18 trauma centers, and the Symposium provides an important forum for the sharing of science and ideas related to trauma.

Program Goals

Physicians and nurses should be aware of the many complex management strategies available for the treatment of the injured in order to minimize complications and mortality. The educational goals of the Symposium are for the attendees to:

- Explore the pros and cons between a “Pan-Scan” versus a Selective Imaging approach in evaluating the multi-injured trauma patient.
- Define 15 essential management principles of peripheral vascular repair.
- Gain awareness of the latest advances in critical care management as it applies to the acute trauma patient.
- Review how advances in military trauma care have impacted civilian trauma care.
- Learn about how patient safety and satisfaction is defined, impeded and enhanced in an era of computerized medicine.
- Examine and understand the principles of prevention and treatment of pain in pediatric trauma patients.
- Explore the unique pathophysiology of the obese trauma patient.

NYC Health + Hospitals is accredited by the Medical Society for the State of New York to sponsor continuing medical education for physicians. NYC Health + Hospitals designates this educational activity for (6.0) AMA PRA Category 1 Credit(s)TM

REMEMBERING A SPECIAL MAN

When one considers the individuals who have left their mark on the history and reputation of Jacobi, one person immediately comes to mind: Dr. Warren Wetzel.

Dr. Wetzel was Chief of Trauma Surgery at Jacobi from 1986-1994. An innovative and widely respected surgeon, Dr. Wetzel was instrumental in the development of a Trauma Service which today enjoys national renown. He also developed a unique relationship with the herpetology staff at the Bronx Zoo, upon which he founded Jacobi's Regional Snakebite Center.

Beloved by colleagues and staff alike, Dr. Wetzel possessed unparalleled surgical skill, remarkable leadership ability, deep compassion, and an intense devotion to Jacobi. He has left us with a legacy and an inspiration we will never forget.
